

REMARKS/ARGUMENTS

Favorable reconsideration of this application in light of the following discussion is respectfully requested.

Claims 1-20 are currently pending. In the outstanding Office Action, Claims 1-20 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-7 of Kubica (U.S. Patent No. 6,669,139).

In response to the rejection of Claims 1-20 under the judicially created doctrine of double patenting, Applicant herewith files a terminal disclaimer in compliance with 37 C.F.R. § 1.321 thereby removing any issue of the double patenting with respect to Claims 1-20. For the record, Applicant notes that the “filing of a terminal disclaimer simply serves the statutory function of removing the rejection of double patenting, and raises neither a presumption nor estoppel on the merits of the rejection.”¹ Applicant also traverses, for the record, the assertion of the Office Action that “the inertial reference system for an aircraft of the present application [is] obviously included in the claimed aircraft with the details of inertial reference system of applicant’s previous patent.”

Consequently, in view of the present response, no further issues are believed to be outstanding in the present application, and the present application is believed to be in condition for formal Allowance. A Notice of Allowance for Claims 1-20 is earnestly solicited.

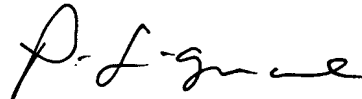

¹ Quad Environmental Technologies Corp. v. Union Sanitary District, 946 F.2d 870, 874, 20 USPQ2d 1392, 1394-5 (Fed. Cir. 1991).

Application No. 10/713,016
Reply to Office Action of March 24, 2005

Should the Examiner deem that any further action is necessary to place this application in even better form for allowance, the Examiner is encouraged to contact Applicant's undersigned representative at the below listed telephone number.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
